## PROFILE SUMMARY

---

First Class Statistics graduate with practical experience in quantitative research, field data collection, and applied data analysis for academic, policy, and development-focused projects. Skilled in Python, R, SQL, and statistical software for data cleaning, modelling, and reporting. Seeking an entry-level role in data analysis, research, or development projects where data quality and evidence-based insights are essential.

## TECHNICAL PROFICIENCY

---

- **Programming & Data:** Python, R, SQL
- **Statistical Methods:** Time-series analysis, regression modelling, forecasting, statistical inference
- **Tools:** Stata, SPSS, Power BI, Microsoft Excel, RStudio, Jupyter Notebook
- **Field Data Collection:** SurveyCTO, Kobotools, Online forms

## PROFESSIONAL EXPERIENCE

---

**Operational Manager (Remote)** Jun 2025 – Dec 2025  
Clearcloud Enterprise, TX, USA

- Coordinated daily operations including customer bookings, invoicing, and service scheduling.
- Maintained basic financial records and supported invoice preparation and reconciliation.
- Worked with cross-functional teams to ensure timely service delivery.

**Quantitative Research Analyst** Oct 2024 – Oct 2025  
Department of Statistics, Federal University of Technology Akure (FUTA)

- Conducted econometric and time-series analyses on financial, energy, and economic datasets using R, Python, Stata, and SPSS.
- Built forecasting and regression models to study crude oil prices, stock market performance, and energy consumption trends.
- Cleaned, validated, and managed datasets used for academic research and policy-related analysis.
- Contributed to manuscript drafting and empirical analysis for research papers under peer review.

**Accounting & Auditing Intern (Remote)** Jul 2024 – Nov 2024  
Excite Associates

- Assisted with processing and reconciliation of financial records during audit and accounting engagements.
- Developed Excel-based tracking templates to monitor sales, expenses, and cash flow for small business clients.

**Field Research & Data Collection Assistant** June 2024  
Ondo State (Development Research Project)

- Participated in a field-based development research project under a Statistics faculty supervisor.
- Deployed to Idanre Local Government Area to administer structured surveys and engage community members.

- Led a small team of enumerators and trained members on the use of SurveyCTO for digital data collection.
- Supported field-level data validation and submission.

---

**Freelance Data Analyst / Consultant (Remote)**

Nov 2021 – Jun 2024

- Delivered data analysis projects across finance, business, and academic research domains.
- Performed data cleaning, statistical analysis, regression modelling, and data visualization using Python and R.

---

**POLICY & DEVELOPMENT ENGAGEMENT**

---

**Budget Validation Co-Officer**

Sept 2025

Ondo State Ministry of Economic Planning & Budget

- Supported data review and validation for the Ondo State 2054 Long-Term Development Plan.
- Assisted consulting teams with documentation checks and budget-related datasets.

---

**EDUCATION**

---

**B.Tech. Statistics (First Class Honours, CGPA: 4.71/5.00)**

2019 – 2025

Federal University of Technology, Akure (FUTA)

---

**CERTIFICATIONS**

- IBM Data Analyst Professional Certificate — Coursera In Progress
- Associate Data Analyst in SQL — DataCamp 2025
